

I respectfully urge you to reject the NAB's petition 04-160 and support XM radios ability to provide the kind of programming that I demand and deserve. I live in rural Colorado and am not able to get quality radio where I live. XM radio has been a God send for me. I travle 45 minutes to work and prior to XM radio had to put up with the few local radio channels that only provide Oldies and Country. Neither of which I am particularly fond of, or play Cd's or Tapes (Which is what I did prior to XM radio). I LOVE, LOVE, LOVE Satellite radio, Please don't pass legislation to force me to go back to inadequate local programming!

Tha air waves should be rich with programming, not limited by the area you live in.

Thanks you for your attention to the above.

Kris Johnson
